RISK FACTORS

In this section, a number of risk factors are illustrated, both risks pertaining to Fastighetsbolaget Emilshus AB (the “Company” or the “Issuer” and together with its direct and indirect subsidiaries, the “Group”) and the Group’s industry, market, business activities, financial situation, legal and regulatory environment, as well risks relating to the Bonds.

The purpose of this section is to enable a potential investor to assess the relevant risks related to their potential investment in the Bonds in order to make an informed investment decision. Each of the risk factors set forth below describe risks which, in the meaning of Regulation (EU) 2017/1129, are material and specific to the Issuer and the Bonds.

All risk factors included below have been assessed by the Issuer to be material and specific to the Issuer and the Bonds in the meaning of Regulation (EU) 2017/1129. The Issuer’s assessment includes both an assessment of the probability of each respective risk factor occurring and the expected magnitude of its negative impact if it would occur.

The risk factors are organised in several categories and the most material risk factor in a category is presented first in each category. Subsequent risk factors in the same category are not purported to be ranked in order of materiality or probability of occurrence.

RISK FACTORS SPECIFIC TO THE ISSUER AND THE GROUP

Risks relating to the Group’s industry, market, business activities and financial situation

The Issuer is subject to risks related to change in value of the Group’s property portfolio

The Issuer’s property portfolio is recognised in the statement of financial position at fair value, and the changes in value are recognised in the profit and loss statement. As of 31 December 2021, the Group’s property value amounted to MSEK 4,827.2 with unrealised value changes in properties for the period 1 January–31 December 2021 amounting to MSEK 453.1. The value of the properties are affected not only by supply and demand in the relevant markets but also by a number of other factors, in part forward looking property specific factors which are subject to uncertainty. These include, inter alia, assumptions regarding occupancy rates, rental rates, operating costs, the properties’ conditions, and market specific factors such as macroeconomic development, general economic trends, regional economic development, occupation rates, supply and production rates of new properties, changes in infrastructure, inflation and interest rate levels in Sweden. The uncertainty varies depending on type of property, geographic location and the property cycle. There is hence a risk that underlying assumptions in past or future valuations of investment properties may prove to be incorrect, which in turn may result in the Group’s valuations not reflecting a future sale price.

The value of the Issuer’s investment properties may decrease and the value of the properties are affected by several factors, some of which are beyond the Issuer’s control. These include national and regional economic developments, changes in interest rates and inflation, changes in infrastructure, new construction, and technological and geographical developments that reduces the attractiveness and demand of such spaces offered by the Issuer. The value may also be affected by market participants’ interest in investing in properties, capital resources and alternative returns from other classes of assets. These factors affect the return on property investments and thus the value of the Issuer’s investment properties.

A significant impairment could lead to breach of covenants in certain of the Issuer’s loan agreements, which could result in certain financings having to be repaid prior to maturity and thereby adversely affect the Group’s liquidity. This could in turn have a material adverse effect on the Issuer’s ability to make payments under the Bonds

A substantial impairment may also have a material adverse effect on the Group’s ability to refinance loans as they mature and its ability to raise new debt to finance the Issuer’s growth. If key assumptions used in the valuation of the Issuer’s property portfolio change or prove to be incorrect, this could have a material adverse effect on the

Group's results and financial position. A deteriorated financial position would have a material adverse effect on the Issuer's business as well as its prerequisite to create growth and achieve its financial objectives.

The Issuer is subject to the risk that adequate financing is not available on acceptable terms or at all

Liquidity and financing risks implies that essential financing cannot be obtained at all, or that it only can be obtained on unfavourable terms to the Issuer or at significantly increased costs. The Issuer's operations are mainly financed through bank loans from Swedish banks, a listed bond loan 2019/2022 as well as the Bonds. As of 31 December 2021, the Group's liabilities to credit institutions amounted to MSEK 2,298.2 and bond loans to MSEK 495.9 with an average duration of 2.6 years, of which 26 per cent. of the Issuer's interest-bearing liabilities matures in 2022, 19 per cent. matures in 2023 and 55 per cent. matures in 2024 or later. There can be no assurance that the Group will be able to incur additional debt or refinance its existing debt when it matures, including the Group's outstanding MSEK 500 bonds 2019/2022 with a total framework amount of MSEK 500 with a final maturity date on 9 December 2022 as well as the Bonds which has a final maturity date on 14 April 2025. Further, the Issuer has written promise of credits and is continuously seeking to raise new loans and renegotiate existing loans. In certain cases, the facilities contain specific obligations such as the Group having to maintain a certain interest coverage ratio or loan-to-value ratio (covenants). The creditors may be entitled to request repayment of the financing provided prior to its maturity date or request changes in the terms and conditions if the Group does not meet these specific covenants. If such a repayment request is made, it could have an adverse impact on the Issuer's financial position and liquidity situation which could have a material adverse effect on the Issuer's ability to make payments under the Bonds.

The Group's ability to refinance its outstanding debt obligations successfully at maturity or, if necessary, obtain additional financing, depends on the debt market conditions and the Issuer's financial positions at the relevant point in time. There is a risk that the Issuer may not be able to obtain necessary financing, or may only be able to obtain necessary financing on unfavourable terms or at substantially increased costs in the future.

It could have a material adverse effect on the Group's ability to finance its future potential capital investment if the Issuer fails with any or all of the following: i) refinancing outstanding debt obligations, ii) can solely obtain refinancing at significantly higher costs, and/or iii) fail to obtain necessary financing for the Issuer's future growth on reasonable terms or at all. This may in turn prevent the realisation of its plans concerning continued property acquisitions and result in the Group having to forgo opportunities that may arise in the future. This could have a negative effect on the Issuer's future prospects and future revenue and cash flow, which in turn could have a material adverse effect on the Issuer's ability to make payments under the Bonds.

The Issuer's rental levels and occupancy rates may decrease and property cost levels increase which could be affected by a variety of factors

Rental levels and thus the Issuer's rental income is affected by, among other things, the demand and supply of properties intended for light industry, external trade, convenience goods trade and industrial service/professional trade in the long term. In addition, the Group's rental income is affected by the properties' occupancy rates, the development of the rental rates and the customers' solvency. Both occupancy and rental rates are largely driven by the general and regional economic trend and is affected by several macro and regional economic factors such as employment trends, changes in infrastructure, increases of population and other demographical trends, inflation, interest levels and access to financing. Occupancy and rental rates are further affected by other factors beyond the Group's control, such as the changed security policy situation and the sanctions imposed against Russia and Belarus following the invasion of Ukraine and its direct and indirect long-term effects on the world economy and the Swedish economy. The Issuer's financial situation and result will be adversely affected, if occupancy and rental rates decrease or if customers are unable to pay their rent.

The risk of vacancies and loss of rental income having a significant effect on a property company increases the more concentrated the customer base is. As of 31 December 2021, the Group had an economic occupancy rate of

97.1 per. cent, the average remaining rental period was 6.5 years, and the ten largest tenants accounted for approximately 39 per cent. of the Group's total rental value and the average remaining rental period for these tenants was 9.2 years. There is a risk that one or more of the Group's larger tenants does not renew or extend a lease once it has expired. If that were to happen, there is a risk that the Group is unable to attract new suitable tenants to rent out the property to. Should the Group be unable to attract new tenants or obtain equivalent rental income from new tenants, this could result in lower occupancy rates and reduced rental income, which could negatively affect the Group's cash flow and which could have a material adverse effect on the Issuer's ability to make payments under the Bonds.

Further, there is a risk that macro-economic factors could have an adverse effect on demand and/or rental rates on property used for light industry, external trade, convenience goods trade and industrial service/professional trade or on the tenant's solvency.

During the financial year 2021, the Group's property costs, including operating, media, maintenance and property tax costs, amounted to MSEK 52 on an annual basis. In accordance with current lease agreement, tenants generally pay specific media and property tax surcharges and in certain cases, the tenant is responsible for maintenance. The Group's control over the property cost rate is largely limited. For example, the electricity price is determined by supply and demand in an open, deregulated and partly international market and other operating costs are partly driven by local monopolies, creating some uncertainty in future costs. Costs may arise from unforeseen and extensive renovation needs and such costs cannot necessarily be compensated through rent increases. Costs may also incur as a result of provisions in lease agreements or regulatory requirements and if the Issuer fails to carry out maintenance and repairs in accordance with such provisions, the Group may incur liability for damages or fines. To adjust buildings and premises in accordance with new regulations is generally associated with costs. The operation of the property may further be affected by construction defects, other hidden defects or deficiencies (e.g., asbestos or mould), damages (e.g., due to fire or natural causes) and contamination that the Group may need to remedy due to contractual or regulatory requirements. An increased vacancy rate may also result in certain property costs (e.g., media costs), which instead of burden the customer, will place a burden on the Issuers income statement.

If i) the vacancy rate in the Group's property portfolio were to increase, ii) the rental levels for light industry, external trade, convenience goods trade and industrial service/professional trade were to develop negatively, iii) tenants are unable to make payments in accordance with the lease agreements, or iv) the Group's property cost level increases, this could negatively impact the Group's costs and cash flow and thus have a material adverse effect on the Group's business, financial position and results. This could in turn have a material adverse effect on the Issuer's ability to make payments under the Bonds.

The Issuer is exposed to interest risks

The Issuer is exposed to interest risks and interest costs are the Issuer's single largest cost item. Interest risks occurs from fluctuations in the market interest rate, which affect the Group's result, cash flow and financial position. A key factor of interest risks is the Issuer's credit margin and fixed interest terms in accordance with its loan and derivative agreements, whereby longer credit margins and fixed interest terms imply greater predictability of cash flows but in general also higher interest levels. As of 31 December 2021, the average fixed interest terms amounted to 2 years, and the average interest on the Issuer's interest-bearing debts was 3 per. cent. as of the same date.

Increasing market interest rate implies a higher interest cost, hence there is a risk that a general increase in the market interest rate in the future could result in raised costs and lower margins for the Group, which may have a negative impact on the Group's total costs, margins and cash flow and thus have a material adverse effect on the Issuer's ability to make payments under the Bonds. As of 31 December 2021, the Issuer's interest bearing debts amounted to MSEK 2,839.1.

The Issuer is subject to risks related to acquisitions and operates in a competitive market

Property transactions are a key part of the Group's business and during the financial year 2021, the Issuer acquired properties with a total value of SEK 1.6 billion.

Property transactions are associated with certain uncertainties and risks. When acquiring properties, there can for example be uncertainties regarding the handling of tenants, costs in relation to environmental remediation or employees, rebuilding or handling of technical problems, decisions from authorities and the occurrence of disputes in relation to the acquisition or the property's condition. There is also a risk that the Issuer conduct incorrect assessments in connection with the due diligence review made by the acquirer or does not acknowledge all the relevant risks associated with a particular acquisition. Furthermore, a vendor of a property may experience financial difficulties and therefore not have the willingness nor ability to pay compensation such as warranty claims in relation to deficiencies in the acquired property. Property agents or other parties acting on the vendors' behalf may also act beyond the scope of its mandate or provide incorrect information, and therefore there may be a risk that the Issuer will not be successful with claims against such parties or the vendor. Property acquisitions are also associated with subjective assessments of future circumstances, including the valuation of the existing tenant's long-term solvency and property-technical assumptions, which may turn out to be inaccurate. Inaccurate assumptions may result in write-down requirements, increased costs and the Group not being able to obtain expected return on its completed investments, which would have material adverse effect on the Group's future revenues and cash flow and the Issuer's ability to make payments under the Bonds.

A key aspect of the Issuer's operations and a significant factor in the Group's ability to achieve its financial targets is the ability to both identify and complete acquisitions within the framework of the Issuer's strategy. The property market is competitive, where the competitiveness of the participants depends on, inter alia, the ability to execute property acquisitions on favourable terms, to retain existing tenants and to anticipate future changes and trends in the property industry. The competition would increase if additional property companies were to enter the Issuer's markets, which could possibly affect the Issuer's ability to acquire new properties. Further, the Issuer's competitiveness could be adversely affected if such competitors have greater resources, greater financial capacity to withstand downturns in the property market, are better at retaining competent personnel or respond more quickly to changes in the tenant needs. In addition, as the Issuer expands outside its primary geographic market, there is a risk that the Issuer's competitors, to a larger extent, can take advantage of their local market knowledge to compete with the Issuer. If the Issuer is unable to compete successfully and fails to carry out acquisitions on the required scale, it could have a material adverse effect on Issuer's business and its future revenues, results and ability to achieve its financial objectives.

The Issuer is subject to risks relating to the ability to recruit and retain qualified employees and senior executives

As of 31 December 2021, the Issuer had 15 employees. The Group and its operations depend on a small number of key employees, including senior executives and employees with special skills. These key employees have great experience of the property market and of property transactions, and has built up good relationships with important participants. These key employees are therefore essential for a successful development of the Group's business in the future. It is further important for the development of the Issuer's business that the Issuer continuously recruit new skilled employees. The Group would be adversely affected if a large number of the Group's employees would leave at the same time, or if the Group would fail to recruit new key employees and other employees. Since the recruitment of skilled employees is subject to competition, there is also a risk that the Issuer will be forced to raise the salaries to its qualified key employees in order to retain them. This could in turn affect the Group's costs, margins and cash flow and thus have a material adverse effect on the Issuer's ability to make payments under the Bonds. If the Issuer cannot retain key employees and/or recruit sufficient qualified personnel, there is a risk that the Group cannot make use of business opportunities. This could in turn have a negative effect on the Group's future operations, revenues and cash flow, which could have a material adverse effect on the Issuer's ability to make payments under the Bonds.

Legal and regulatory risks

The Issuer is exposed to environmental risks and related regulatory risks

According to Swedish legislation, the main rule is that the current or former business operator (Sw. *verksamhetsutövaren*) is responsible for the remediation of a contaminated property. There could be, or may have previously been, tenants on the properties owned directly or indirectly by the Group who conduct operations that require permits in accordance with the Swedish Environmental Code (Sw. *miljöbalken (1998:808)*), i.e. business operators within the meaning of the Environmental Code. If the business operator cannot perform or pay for the remediation of a contaminated property, the party who has acquired the property can be held responsible for the remediation if the party knew of, or at the time ought to have discovered, the contaminations. As the Group owns 97¹ properties, there is a risk that claims under certain circumstances may be directed against the Group for remediation or after-treatment due to the occurrence of, or suspicion of, contamination in the ground, water areas or groundwater, in order to ensure that the property is in such condition as required by the Environmental Code.

Furthermore, previous business operators may have carried out after-treatment of a property in an acceptable manner as required for the usage of the property at that point in time. As a result of changed usage of a property to a residential property, the requirements for the Group may be higher, which imply that the Group may have costs for after-treatment and remediation in order to be able to use a property as intended.

If changes to legislation and administrative provisions were to occur, this may lead to increased costs for remediation or after-treatment for current properties and properties acquired in the future. All the above mentioned risks could, if they occur, have a material adverse effect on the Group's costs, margins and cash flow and in turn have a material adverse effect on the Issuer's ability to make payments under the Bonds.

The Issuer is exposed to risks related to disputes and other legal proceedings

There is a risk that the Issuer in future may become involved in disputes with tenants, vendors or buyers of properties, suppliers and other parties. Disputes, claims, investigations and legal proceedings may result in the Issuer being obliged to pay damages, reduce or refund rents or cease with certain proceedings. Group companies may become involved in disputes within the ordinary course of business and risks being subject to lawsuits involving, for example, lease agreements, the acquisition or sale of property or property-owning companies, as well as employment-related disputes. In addition, the Issuer, or its board of directors, officers, employees or associated companies, may be subject to investigations or criminal proceedings. Such disputes, claims, investigations and legal proceedings may be time-consuming, disruptive to the daily operations, result in claims of substantial amounts and involve significant litigation costs. In addition, it can often be difficult to predict the outcome of complex disputes, claims, investigations and legal proceedings. Consequently, disputes, claims, investigations and legal proceedings may have a material adverse effect on the Issuer's business and result.

The Issuer's tax situation may deteriorate as a result of changes in applicable tax legislation

The Group's operations is carried out in accordance with its interpretation of applicable laws, regulations and precedents within the tax field and in accordance with guidance from tax consultants. However, it cannot be ruled out that the Group's interpretation of applicable tax regulations and precedents is incorrect, nor that the tax regulations and precedents within the area changes with retroactive effect. The Group may also be subject to tax reviews and tax audits, which could result in additional taxes, interest or fees for the Group. For example, there is a risk that a tax review or audit finds that the Group's income tax or value added tax has been incorrect. This could result in the Group being obliged to pay additional tax and that tax surcharges are imposed, which would increase the Group's costs and decrease the Group's cash flow, which could have a material adverse effect on the Issuer's ability to make payments under the Bonds.

The Group can also be affected by legislative changes within the tax field. In March 2017, the Swedish Government Official Report "Certain matters involving properties and stamp duty" (Sw. *Vissa frågor inom*

¹ As of 31 December 2021.

fastighets- och stämpelskatteområdet, SOU 2017:27) presented its proposal for new rules for the sale of shares in property-owning companies. The starting point for the investigator was to try to equate tax on the direct divestments of properties with divestments through “packaging”, whereby the properties are sold indirectly through the transfer of shares in a property-owning company, which currently generally does not trigger any capital gains tax. The proposals by the investigator included the introduction of “dissolution” (Sw. *avskattning*) for property divestments through packaging, which essentially entails that upon the cessation of the controlling influence over a company, it should be regarded as fiscally divested and then reacquired at a price corresponding to market value. This means that the difference between the tax assessment value and the market value of properties shall be taxed upon the external sale of property companies.

The investigator also proposed a reduction in stamp duty from 4.25 per. cent to 2.0 per cent. and that the property company on dissolution also shall recognise standard revenue equivalent to 7.09 per cent. of the highest of the market value and the tax assessment value for the year preceding the year when the properties are deemed divested. The intention is that the standard revenue should correspond to the stamp duty that would have been paid if the property was sold directly.

As of the date of this document, there is an uncertainty whether the government intends to proceed with the investigator’s proposal. If the government were to proceed with the proposal in its current or modified form, it is likely that this would lead to a greater tax burden for the Group in future property sales, since the Issuer’s property divestments mainly are made by property-owning companies who divest its properties. Such legislation would also imply higher purchase prices for the Issuer when the Group acquire real property since the higher tax cost partially would result in higher purchase price.

If any of the above mentioned risks would occur, it could result in raised tax costs and lower margins for the Group’s business and a decreased cash flow, which in turn may have a material adverse effect on the Issuer’s ability to make payments under the Bonds.

The Issuer may be required to pay administrative fines or be subject to other sanctions due to inaccurate or unlawful processing of personal data

The Group processes and stores personal data of various kinds in both electronic and physical form, including data about residential tenants and representatives of commercial tenants and, to the extent that it exists, insider information. The Group also processes personal data relating to employees and consultants. When the Group processes such data, it is of great importance that the processing takes place in accordance with, inter alia, Swedish law and EU regulations, such as the General Data Protection Regulation (“**GDPR**”). For example, there are strict requirements for informing people about what personal data the Group processes and that this processing takes place in a manner that is consistent with the purpose for which the personal data was collected. If the Group processes this personal data inadequately, there is a risk that the Group will have to pay penalty fees for violations of, for example GDPR as caused by such events. In addition, there is a risk that the Group will fail in handling of confidential or sensitive information or that such information will be disclosed or made available to others as a result of, for example, data breaches or so-called extortion viruses or extortion programs (ransomware). If the Group fails in its processing of personal data, is subject for breach of law, does not comply with provisions in completed agreements or if confidential or sensitive information is disclosed or made available to others, it could negatively affect the Group’s costs, reputation and future revenue as well as cash flow and thus have a material adverse effect on the Issuer’s ability to make payments under the Bonds.

RISK FACTORS SPECIFIC AND MATERIAL TO THE BONDS

Risks related to the nature of the Bonds

Ability to service debt and credit risk

The Issuer’s ability to service its debt under the Bonds depends on the Issuer’s ability to have liquid funds in order to meet its payment obligations, which in turn is largely dependent upon the performance of the Group’s operations and its financial position. The Group’s financial position is affected by several factors, some of which have been

mentioned above, such as prevailing economic conditions and financial, business, regulatory and other factors, some of which are beyond the Group's control.

If the Group's operating income is not sufficient to service its current or future indebtedness, the Group will be forced to take actions such as reducing or delaying its business activities, acquisitions, investments or capital expenditures, selling of assets, restructuring or refinancing of its debt or seeking additional equity capital.

The risk that the Group cannot service its debt obligations under the Bonds also implies a credit risk for investors in the Bonds. An increased credit risk will cause the market to charge the Bonds a higher risk premium, which will affect the Bonds' secondary market value negatively. Another aspect of the credit risk is that a potential deteriorating financial position of the Group would reduce the Group's possibility to receive debt financing at the time of the maturity of the Bonds, as it may cause the Issuer's credit profile to decrease, and consequently affect the Issuer's ability to repay the Bonds at maturity, as set out below under "*Refinancing risk*".

Refinancing risk

The Group finances its business, by way of equity and bank financing. As of 31 December 2021, the Issuer's equity amounted to approximately MSEK 1,847.8 whereas the total balance sheet liabilities amounted to approximately MSEK 3,139.60. Consequently, the Group may be required to refinance its outstanding debt, including the Bonds, from time to time.

The Group's ability to refinance the Bonds at maturity depends on a number of factors, such as market conditions, the availability of cash flows from operations and access to additional debt and equity financing. In addition, restrictions in relation to the Group's debt financing arrangements as well as adverse developments in the credit markets and other future adverse developments, such as the deterioration of the overall financial markets or a worsening of general economic conditions, could have a material adverse effect on the Group's ability to borrow funds as well as the cost and other terms of funding. There can be no assurance that such funds will be available at a commercially reasonable cost, or at all and consequently, there can be no assurance that the Group will be able to refinance the Bonds when they mature.

Interest rate risks and benchmarks

The Bonds' value depends on several factors, one of the more significant over time being the level of market interest. The Bonds bear a floating rate interest of STIBOR plus a margin per annum and the interest rate is therefore adjusted for changes in the level of the general interest rate. Hence, there is a risk that changes in the general interest rate levels significantly affect the market value of the Bonds.

The determining interest rate benchmarks, such as STIBOR has been subject to regulatory changes such as the Benchmarks Regulation (Regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds) (the "**BMR**"). The implementation of the BMR will lead to that certain previously used benchmarks, such as LIBOR will be discontinued, leading to that, among other things, existing financing arrangements will have to be renegotiated or terminated. There is a risk that also STIBOR will be discontinued, or that alternative benchmark rates will dominate market practice, leading to uncertainties in relation to the interest rate payable in relation to the Bonds. Increased or altered regulatory requirements and risks associated with the BMR (as amended) involve inherent risks, as the effects cannot be fully assessed at this point in time. There is a risk that developments in relation to STIBOR cause volatility in STIBOR, which would affect the interest rate for the Bonds. Should STIBOR be discontinued, the Terms and Conditions provides for an alternative calculation of the interest rate for the Bonds. There is a risk that such alternative calculation results in interest payments less advantageous for the Bondholders or that such interest payment do not meet market interest rate expectations.

Risks related to the labelling of the Bonds

The Company intends to use the net proceeds of the issue of the Bonds in accordance with the Company's green finance framework (the "**Green Bond Framework**"). However, there is currently no unequivocal definition of, legal or otherwise, or market consensus as to what constitutes a "green" or an equivalently-labelled project.

Accordingly, there is a risk that any projects, asset or uses defined in the Green Bond Framework will not meet current or future investor expectations regarding such “green” or other equivalently-labelled performance objectives, in particular as future developments or legal requirements as to the definitions of “green”, whether according to applicable law or regulations or by such investor’s own by-laws, other governing rules or investment portfolio mandates, may change.

A failure by the Company to apply the net proceeds of the Bonds in accordance with the Green Bond Framework does not give the investor a right to require that the Company shall repurchase or redeem any of their Bonds. Should the Company fail to apply the net proceeds in accordance with the Green Bond Framework, there is a risk that investors consequently would be in breach of any investment criteria, mandates or guidelines with which an investor is required to comply with and could result in remedies under the relevant investment criteria, mandates or guidelines, which could result in investors facing, inter alia, claims or reputational damages.

Due to the rapidly changing market conditions for green securities, there is a risk that current or future investor expectations will not be met which could negatively affect the secondary trading of the Bonds. Furthermore, should such market conditions significantly change, there is a risk that an investor of the Bonds cannot trade its Bonds at attractive terms, or at all.

Risks related to the admission of the Bonds to trading on a regulated market

Risks related to admission to trading and liquidity

The Issuer has undertaken to ensure that the Bonds are admitted to trading on the sustainable bond list of Nasdaq Stockholm within a certain time period as stipulated in the Terms and Conditions (or if such admission to trading is not possible to obtain or maintain, admitted to trading on another regulated market). However, there is a risk that the Bonds will not be admitted to trading.

Further, even if securities, including the Bonds, are admitted to trading on the relevant market, there is not always active trading in the securities. Hence, and considering that the nominal amount of each bond is relatively high (SEK 1,250,000), there is an intermediate risk that the market for trading in the Bonds will be illiquid even if the Bonds are admitted to trading. In addition, as the Bonds are traded over-the-counter (OTC) there is a risk for smaller volume of trades in the Bonds. The above risks may result in that the Bondholders cannot sell their Bonds when desired or at a price level which allows for a profit comparable to similar investments with an active and functioning secondary market. Lack of liquidity in the market may have a negative impact on the market value of the Bonds. Furthermore, the nominal value of the Bonds may not be indicative compared to the market price of the Bonds if they are admitted for trading.

It should also be noted that during a given time period it may be difficult or impossible to sell the Bonds (at all or at reasonable terms) due to, for example, severe price fluctuations, close down of the relevant market or trade restrictions imposed on the market.

Risks related to the Bondholders’ rights and representation

Financing, priority rights and unsecured obligations

Subject to the provisions set out in the Terms and Conditions, the Issuer and its subsidiaries may maintain and incur additional financing and retain, provide or renew security over its current or future assets to secure such financing. Any such secured financing will rank senior to the Bonds and the security interests provided therefore will normally constitute a preferential claim on the borrower. Furthermore, if the Issuer’s subsidiaries incur debt, the right to payment under the Bonds will be structurally subordinated to the right of payment relating to debt incurred by subsidiaries of the Issuer.

The Bonds constitute unsecured debt obligations of the Issuer and no present or future shareholder or subsidiary of the Issuer will guarantee the Issuer’s obligations under the Bonds. If the Issuer becomes subject to any foreclosure, dissolution, winding-up, liquidation, bankruptcy or other insolvency proceedings, the Bondholders

normally receive payment after any prioritised creditors, including those which are mandatorily preferred by law, have been paid in full. Furthermore, following prioritised creditors receiving payment in full, the Bondholders will have an unsecured claim against the Issuer for the amounts due under or in respect of the Bonds, which means that the Bondholders normally would receive payment pro rata with other unsecured creditors.

All of the above could have a negative impact on the Bondholders' recovery under the Bonds and there is a risk that a Bondholder loses the entire or parts of its investment in the event of the Issuer's liquidation, bankruptcy or company reorganisation.

Structural subordination and insolvency of subsidiaries

In the event of insolvency, liquidation or a similar event relating to one of the Issuer's subsidiaries, all creditors of such company would be entitled to payment in full out of the assets of such company before the Issuer, as a shareholder, would be entitled to any payments. Thus, the Bonds are structurally subordinated to the liabilities of such subsidiaries. Defaults by, or the insolvency of, certain subsidiaries or other associates of the Issuer may result in the obligation of the Issuer to make payments under financial or performance guarantees in respect of such companies' obligations or the occurrence of cross defaults on certain borrowings of the Group. There is a risk that the Issuer and its assets would not be protected from any actions by the creditors of a subsidiary, whether under bankruptcy law, by contract or otherwise.

Business and operations

Emilshus is a property company based in Småland that acquires, manages and develops commercial properties. As of 31 December 2021, Emilshus' property portfolio consisted of 97 properties with a fair value of MSEK 4,827.2. Emilshus' property portfolio is currently located exclusively in the administrative areas of Jönköping, Kalmar, Vetlanda, Värnamo, Växjö and Halmstad within the main property categories light industry, big box retail and grocery stores and industrial service/professional trade. In March 2022, the company also entered into an agreement for the acquisition of six properties with a total property value of approximately MSEK 500 in Östergötland, the closing of which shall occur no later than December 2022.

Emilshus' business idea and general strategy

Emilshus' business idea is to acquire, develop and manage high yielding commercial properties with Småland as primary market with a focus on high yields in combination with long rental agreements and tenants with an assessed good payment capacity.

Emilshus' aims to generate strong cash flows through (i) acquiring, developing and managing high yielding commercial properties with Småland as primary market, (ii) focusing on light industry, professional trade/industry services, big box retail and grocery stores, (iii) establishing long term and close relationships with the Company's tenants through a local presence and a local commitment in the places where the Company conducts its business and (iv) ensuring stable financing of the Company's business.

Emilshus' acquisition strategy

Emilshus acquires both larger property portfolios and individual properties and often targets local property owners for acquisitions. Together with the Company's strong local presence and wide network, the Company's acquisition flexibility enables the acquisition of properties with good risk-adjusted returns. The local presence and network in the region also enables the Company to identify and carry out so called sale and lease back transactions as well as

property acquisitions directly from sellers which has not been subject to marketing. In the case of acquisitions, priority is given to properties with predictable and long-term strong existing cash flows that are generated through existing leases with long remaining lease periods. Emilshus also focuses on properties that house tenants with good creditworthiness and long-term operations. Emilshus' prioritization of predictable cash flows enables the Company to grow and acquire new properties with its own generated funds. At the same time, the stability and predictability of cash flows contribute to good resilience in potentially worse future economic conditions. A central part of Emilshus' acquisition strategy is also to focus on the acquisition of properties in the geographical vicinity of the Group's existing property portfolio in order to achieve scalability in its property management.

Emilshus' Tenants and lease agreements

Emilshus uses so-called triple net agreements for a large part of the tenancies, which means that the Company remains the owner and landlord, but that the tenant undertakes to bear the costs normally borne by the property owner such as costs for insurance, property tax and maintenance. The triple net agreements also contain provisions which mean that the tenant is responsible for the property being damaged or destroyed. This agreement model thus entails lower overheads and a more stable cash flow for the Group and also entails that the tenants are not entitled to a reduction in the rent or other sanctions for obstacles or damage to the use of the property. In accordance with the Company's strategy, Emilshus' tenants include a number of large and creditworthy companies and government agencies with good ability to pay.

- 15.11.2 The Agent may not terminate the Bonds in accordance with Clause 15.11.1 by reference to a specific Event of Default if it is no longer continuing or if it has been decided, in accordance with these Terms and Conditions, to waive such Event of Default (temporarily or permanently). However, if a moratorium occurs, the ending of that moratorium will not prevent termination for payment prematurely on the grounds mentioned under Clause 15.11.1.
- 15.11.3 The Agent shall notify the Bondholders of an Event of Default within five (5) Business Days of the date on which the Agent received notice of or gained actual knowledge of that an Event of Default has occurred and is continuing. - 15.11.6 If the Bonds are declared due and payable in accordance with the provisions in this Clause 15, the Agent shall take every reasonable measure necessary to recover the amounts outstanding under the Bonds.
- 15.11.7 If the right to terminate the Bonds is based upon a decision of a court of law, an arbitral tribunal or a government authority, it is not necessary that the decision has become enforceable under any applicable regulation or that the period of appeal has expired in order for cause of termination to be deemed to exist.
- 15.11.8 For the avoidance of doubt, the Bonds cannot be terminated and become due for payment prematurely according to this Clause 15 without relevant decision by the Agent or following instructions from the Bondholders' pursuant to Clause 16 (*Decisions by Bondholders*).

Any excess funds after the application of proceeds in accordance with paragraphs (a) to (d) above shall be paid to the Issuer. The application of proceeds in accordance with paragraphs (a) to (d) above shall, however, not restrict a Bondholders' Meeting or a Written Procedure from resolving that accrued Interest (whether overdue or not) shall be reduced without a corresponding reduction of principal.

- 15.12.2 If a Bondholder or another party has paid any fees, costs, expenses or indemnities referred to in Clause 15.12.1, such Bondholder or other party shall be entitled to reimbursement by way of a corresponding distribution in accordance with Clause 15.12.1.

The Agent shall arrange for payments of such funds in accordance with this Clause 15.12 as soon as reasonably practicable.
- 15.12.4 If the Issuer or the Agent shall make any payment under this Clause 15.12, the Issuer or the Agent, as applicable, shall notify the Bondholders of any such payment at least ten (10) Business Days before the payment is made. The Bondholders' Meeting may decide that further individuals may attend. If a representative/proxy shall attend the Bondholders' Meeting instead of the Bondholder, the representative/proxy shall present a duly executed proxy or other document establishing its authority to represent the Bondholder.

16.2.5 Without amending or varying these Terms and Conditions, the Agent may prescribe such further regulations regarding the convening and holding of a Bondholders' Meeting as the Agent may deem appropriate. Such regulations may include a possibility for Bondholders to vote without attending the meeting in Person.

17. AMENDMENTS AND WAIVERS

17.1 The Issuer and the Agent (acting on behalf of the Bondholders) may agree in writing to amend the Finance Documents or waive any provision in the Finance Documents, provided that the Agent is satisfied that such amendment or waiver:

18.1.1 By subscribing for Bonds, each initial Bondholder appoints the Agent to act as its agent in all matters relating to the Bonds and the Finance Documents, and authorises the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Bonds held by such Bondholder, including the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or its equivalent in any other jurisdiction) of the Issuer. By acquiring Bonds, each subsequent Bondholder confirms such appointment and authorisation for the Agent to act on its behalf.

18.1.2 Each Bondholder shall immediately upon request provide the Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the Agent), that the

Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents. The Agent is under no obligation to represent a Bondholder which does not comply with such request.

- 18.1.3 The Issuer shall promptly upon request provide the Agent with any documents and other assistance (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents.
- 18.1.4 The Agent is entitled to fees for all its work in such capacity and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents and the Agency Agreement and the Agent's obligations as Agent under the Finance Documents are conditioned upon the due payment of such fees and indemnifications.
- 18.1.5 The Agent may act as agent or trustee for several issues of securities issued by or relating to the Issuer and other Group Companies notwithstanding potential conflicts of interest.

18.2 Duties of the Agent

- 18.2.1 The Agent shall represent the Bondholders in accordance with the Finance Documents. The Agent is not responsible for the contents, legal validity or enforceability of the Finance Documents. The Agent does not review the documents and other evidence delivered to it pursuant to Clause 5.1 or 5.2 from a legal or commercial perspective of the Bondholders.
- 18.2.2 When acting pursuant to the Finance Documents, the Agent is always acting with binding effect on behalf of the Bondholders. The Agent is never acting as an advisor to the Bondholders or the Issuer. Any advice or opinion from the Agent does not bind the Bondholders or the Issuer.
- 18.2.3 When acting pursuant to the Finance Documents, the Agent shall carry out its duties with reasonable care and skill in a proficient and professional manner.
- 18.2.4 The Agent shall treat all Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders as a group and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- 18.2.5 The Agent is always entitled to delegate its duties to other professional parties and to engage external experts when carrying out its duties as agent, without having to first obtain any consent from the Bondholders or the Issuer. The Agent shall however remain liable for any actions of such parties if such parties are performing duties of the Agent under the Finance Documents.
- 18.2.6 The Issuer shall on demand by the Agent pay all costs for external experts engaged by it:
 - (a) after the occurrence of an Event of Default;
 - (b) for the purpose of investigating or considering:
 - (i) an event or circumstance which the Agent reasonably believes is or may lead to an Event of Default; or
 - (ii) a matter relating to the Issuer or the Finance Documents which the Agent reasonably believes may be detrimental to the interests of the Bondholders under the Finance Documents;

- (c) in connection with any Bondholders' Meeting or Written Procedure;
- (d) in connection with any amendment (whether contemplated by the Finance Documents or not) or waiver under the Finance Documents.

Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 15.12 (*Distribution of proceeds*).

- 18.2.7 The Agent shall, as applicable, enter into agreements with the CSD, and comply with such agreement and the CSD Regulations applicable to the Agent, as may be necessary in order for the Agent to carry out its duties under the Finance Documents.
- 18.2.8 Other than as specifically set out in the Finance Documents, the Agent shall not be obliged to monitor:
- (a) whether any Event of Default has occurred;
 - (b) the performance, default or any breach by the Issuer or any other party of its obligations under the Finance Documents; or
 - (c) whether any other event specified in any Finance Document has occurred.

Should the Agent not receive such information, the Agent is entitled to assume that no such event or circumstance exists or can be expected to occur, provided that the Agent does not have actual knowledge of such event or circumstance.

- 18.2.9 The Agent shall review each Compliance Certificate delivered to it to determine that it meets the requirements set out in Clause 12.3.2 and as otherwise agreed between the Issuer and the Agent. The Issuer shall promptly upon request provide the Agent with such information as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 18.2.9.
- 18.2.10 The Agent shall ensure that it receives evidence satisfactory to it that Finance Documents which are required to be delivered to the Agent are duly authorised and executed (as applicable). The Issuer shall promptly upon request provide the Agent with such documents and evidence as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 18.2.9. Other than as set out above, the Agent shall neither be liable to the Issuer or the Bondholders for damage due to any documents and information delivered to the Agent not being accurate, correct and complete, unless it has actual knowledge to the contrary, nor be liable for the content, validity, perfection or enforceability of such documents.
- 18.2.11 Notwithstanding any other provision of the Finance Documents to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any regulation.
- 18.2.12 If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Bondholders, or taking any action at its own initiative, will not be covered by the Issuer, the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate security has been provided therefore) as it may reasonably require.

- 18.2.13 The Agent shall give a notice to the Bondholders before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or if it refrains from acting for any reason described in Clause 18.2.12.
- 18.2.14 Upon the reasonable request by a Bondholder, the Agent shall promptly distribute to the Bondholders any information from such Bondholder which relates to the Bonds (at the discretion of the Agent). The Agent may require that the requesting Bondholder reimburses any costs or expenses incurred, or to be incurred, by the Agent in doing so (including a reasonable fee for the work of the Agent) before any such information is distributed. The Agent shall upon request by a Bondholder disclose the identity of any other Bondholder who has consented to the Agent in doing so.
- 18.2.15 Subject to any restrictions of a non-disclosure agreement entered into by the Agent in connection with these Terms and Conditions, the Agent shall be entitled to disclose to the Bondholders any document, information, event or circumstance directly or indirectly relating to the Issuer or the Bonds. Notwithstanding the foregoing, the Agent may if it considers it to be beneficial to the interests of the Bondholders delay disclosure or refrain from disclosing certain information (save for that any delay in disclosing an Event of Default, which event shall be governed by Clause 15.11.3).

18.3 Liability for the Agent

- 18.3.1 The Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect or consequential loss.
- 18.3.2 The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts provided to the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Bondholders to delay the action in order to first obtain instructions from the Bondholders.
- 18.3.3 The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the Agent to the Bondholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.
- 18.3.4 The Agent shall have no liability to the Issuer or the Bondholders for damage caused by the Agent acting in accordance with instructions of the Bondholders given in accordance with the Finance Documents.
- 18.3.5 Any liability towards the Issuer which is incurred by the Agent in acting under, or in relation to, the Finance Documents shall not be subject to set-off against the obligations of the Issuer to the Bondholders under the Finance Documents.

18.4 Replacement of the Agent

- 18.4.1 Subject to Clause 18.4.6, the Agent may resign by giving notice to the Issuer and the Bondholders, in which case the Bondholders shall appoint a successor Agent at a Bondholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.
- 18.4.2 Subject to Clause 18.4.6, if the Agent is insolvent or becomes subject to bankruptcy proceedings, the Agent shall be deemed to resign as Agent and the Issuer shall within ten (10) Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- 18.4.3 A Bondholder (or Bondholders) representing at least ten (10.00) per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice shall, if given by several Bondholders, be given by them jointly), require that a Bondholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Bondholders that the Agent be dismissed and a new Agent appointed.
- 18.4.4 If the Bondholders have not appointed a successor Agent within ninety (90) days after:
- (a) the earlier of the notice of resignation was given or the resignation otherwise took place; or
 - (b) the Agent was dismissed through a decision by the Bondholders,
- the Issuer shall within thirty (30) days thereafter appoint a successor Agent which shall be an independent financial institution or other reputable company with the necessary resources to act as agent in respect of Market Loans.
- 18.4.5 The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Finance Documents.
- 18.4.6 The Agent's resignation or dismissal shall only take effect upon the earlier of:
- (a) the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent; and
 - (b) the period pursuant to paragraph (b) of Clause 18.4.4 having lapsed.
- 18.4.7 Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.
- 18.4.8 In the event that there is a change of the Agent in accordance with this Clause 18.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and

releasing the retiring Agent from its further obligations under the Finance Documents and the Agency Agreement. Unless the Issuer and the new Agent agree otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

19. THE ISSUING AGENT

The Issuing Agent shall be a commercial bank or securities institution approved by the CSD.
- 19.2 The Issuer shall ensure that the Issuing Agent enters into agreements with the CSD, and comply with such agreement and the CSD Regulations applicable to the Issuing Agent, as may be necessary in order for the Issuing Agent to carry out its duties relating to the Bonds.
- 19.3 The Issuing Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its gross negligence or wilful misconduct. The Issuing Agent shall never be responsible for indirect or consequential loss.

20. REPLACEMENT OF BASE

20.1 General

- 20.1.1 Any determination or election to be made by an Independent Adviser, the Issuer or the Bondholders in accordance with the provisions of this Clause 20 shall at all times be made by such Independent Adviser, the Issuer or the Bondholders (as applicable) acting in good faith, in a commercially reasonable manner and by reference to relevant market data.
- 20.1.2 If a Base Rate Event has occurred, this Clause 20 shall take precedent over the fallbacks set out in paragraph (b) to (d) of the definition of STIBOR.

20.2 Definitions

In this Clause 20:

“**Adjustment Spread**” means a spread (which may be positive, negative or zero) or a formula or methodology for calculating a spread, or a combination thereof to be applied to a Successor Base Rate and that is:

- (a) formally recommended by any Relevant Nominating Body in relation to the replacement of the Base Rate; or
- (b) if (a) is not applicable, the adjustment spread that the Independent Adviser determines is reasonable to use in order to eliminate, to the extent possible, any transfer of economic value from one party to another as a result of a replacement of the Base Rate and is customarily applied in comparable debt capital market transactions.

“**Base Rate Amendments**” has the meaning set forth in Clause 20.3.4.

“**Base Rate Event**” means one or several of the following circumstances:

- (a) the Base Rate (for the relevant Interest Period) has ceased to exist or ceased to be published for at least five (5) consecutive Business Days as a result of the Base Rate (for the relevant Interest Period) ceasing to be calculated or administered;
- (b) a public statement or publication of information by (i) the supervisor of the Base Rate Administrator or (ii) the Base Rate Administrator that the Base Rate Administrator ceases to provide the applicable Base Rate (for the relevant Interest Period) permanently or indefinitely and, at the time of the statement or publication, no successor administrator has been appointed or is expected to be appointed to continue to provide the Base Rate;
- (c) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator that the Base Rate (for the relevant Interest Period) is no longer representative of the underlying market which the Base Rate is intended to represent and the representativeness of the Base Rate will not be restored in the opinion of the supervisor of the Base Rate Administrator;
- (d) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator with the consequence that it is unlawful for the Issuer or the Issuing Agent to calculate any payments due to be made to any Bondholders using the applicable Base Rate (for the relevant Interest Period) or it has otherwise become prohibited to use the applicable Base Rate (for the relevant Interest Period);
- (e) a public statement or publication of information in each case by the bankruptcy trustee of the Base Rate Administrator or by the trustee under the bank recovery and resolution framework (Sw. *krishanteringsregelverket*) containing the information referred to in (b) above; or
- (f) a Base Rate Event Announcement has been made and the announced Base Rate Event as set out in (b) to (e) above will occur within six (6) months.

“Base Rate Event Announcement” means a public statement or published information as set out in paragraph (b) to (e) of the definition of Base Rate Event that any event or circumstance specified therein will occur.

“Independent Adviser” means an independent financial institution or adviser of repute in the debt capital markets where the Base Rate is commonly used.

“Relevant Nominating Body” means, subject to applicable law, firstly any relevant supervisory authority, secondly any applicable central bank, or any working group or committee of any of them, or thirdly the Financial Stability Council (Finansiella stabilitetsrådet) or any part thereof.

“Successor Base Rate” means:

- (a) a screen or benchmark rate, including the methodology for calculating term structure and calculation methods in respect of debt instruments with similar interest rate terms as the Bonds, which is formally recommended as a successor to or replacement of the Base Rate by a Relevant Nominating Body; or
- (b) if there is no such rate as described in paragraph (a), such other rate as the Independent Adviser determines is most comparable to the Base Rate.

For the avoidance of doubt, in the event that a Successor Base Rate ceases to exist, this definition shall apply *mutatis mutandis* to such new Successor Base Rate.

20.3 Determination of Base Rate, Adjustment Spread and Base Rate Amendments

20.3.1 Without prejudice to Clause 20.3.2, upon a Base Rate Event Announcement, the Issuer may, if it is possible to determine a Successor Base Rate at such point of time, at any time before the occurrence of the relevant Base Rate Event at the Issuer's expense appoint an Independent Adviser to initiate the procedure to determine a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating and finally deciding the applicable Base Rate. For the avoidance of doubt, the Issuer will not be obliged to take any such actions until obliged to do so pursuant to Clause 20.3.2.

20.3.2 If a Base Rate Event has occurred, the Issuer shall use all commercially reasonable endeavours to, as soon as reasonably practicable and at the Issuer's expense, appoint an Independent Adviser to initiate the procedure to determine, as soon as commercially reasonable, a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating, and finally deciding the applicable Base Rate.

20.3.3 If the Issuer fails to appoint an Independent Adviser in accordance with Clause 20.3.2, the Bondholders shall, if so decided at a Bondholders' Meeting or by way of Written Procedure, be entitled to appoint an Independent Adviser (at the Issuer's expense) for the purposes set forth in Clause 20.3.2. If an Event of Default has occurred and is continuing, or if the Issuer fails to carry out any other actions set forth in Clause 20.3 to 20.6, the Agent (acting on the instructions of the Bondholders) may to the extent necessary effectuate any Base Rate Amendments without the Issuer's cooperation.

20.3.4 The Independent Adviser shall also initiate the procedure to determine any technical, administrative or operational changes required to ensure the proper operation of a Successor Base Rate or to reflect the adoption of such Successor Base Rate in a manner substantially consistent with market practice ("**Base Rate Amendments**").

20.3.5 Provided that a Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments have been finally decided no later than prior to the relevant Quotation Day in relation to the next succeeding Interest Period, they shall become effective with effect from and including the commencement of the next succeeding Interest Period, always subject to any technical limitations of the CSD and any calculations methods applicable to such Successor Base Rate.

20.4 Interim measures

20.4.1 If a Base Rate Event set out in any of the paragraphs (a) to (e) of the Base Rate Event definition has occurred but no Successor Base Rate and Adjustment Spread have been finally decided prior to the relevant Quotation Day in relation to the next succeeding Interest Period or if such Successor Base Rate and Adjustment Spread have been finally decided but due to technical limitations of the CSD, cannot be applied in relation to the relevant Quotation Day, the Interest Rate applicable to the next succeeding Interest Period shall be:

- (a) if the previous Base Rate is available, determined pursuant to the terms that would apply to the determination of the Base Rate as if no Base Rate Event had occurred; or
- (b) if the previous Base Rate is no longer available or cannot be used in accordance with applicable law or regulation, equal to the Interest Rate determined for the immediately preceding Interest Period.

20.4.2 For the avoidance of doubt, Clause 20.4.1 shall apply only to the relevant next succeeding Interest Period and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustments as provided in, this Clause 20. This will however not limit the application of Clause 20.4.1 for any subsequent Interest Periods, should all relevant actions provided in this Clause 20 have been taken, but without success.

20.5 **Notices etc.**

Prior to the Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments become effective the Issuer shall promptly, following the final decision by the Independent Adviser of any Successor Base Rate, Adjustment Spread and any Base Rate Amendments, give notice thereof to the Agent, the Issuing Agent and the Bondholders in accordance with Clause 24 (*Notices and press releases*) and the CSD. The notice shall also include information about the effective date of the amendments. If the Bonds are admitted to trading on a stock exchange, the Issuer shall also give notice of the amendments to the relevant stock exchange.

20.6 **Variation upon replacement of Base Rate**

20.6.1 No later than giving the Agent notice pursuant to Clause 20.5, the Issuer shall deliver to the Agent a certificate signed by the Independent Adviser and the CEO, CFO or any other duly authorised signatory of the Issuer (subject to Clause 20.3.3) confirming the relevant Successor Base Rate, the Adjustment Spread and any Base Rate Amendments, in each case as determined and decided in accordance with the provisions of this Clause 20. The Successor Base Rate the Adjustment Spread and any Base Rate Amendments (as applicable) specified in such certificate will, in the absence of manifest error or bad faith in any decision, be binding on the Issuer, the Agent, the Issuing Agent and the Bondholders.

20.6.2 Subject to receipt by the Agent of the certificate referred to in Clause 20.6.1, the Issuer and the Agent shall, at the request and expense of the Issuer, without the requirement for any consent or approval of the Bondholders, without undue delay effect such amendments to the Finance Documents as may be required by the Issuer in order to give effect to this Clause 20.

20.6.3 The Agent and the Issuing Agent shall always be entitled to consult with external experts prior to amendments are effected pursuant to this Clause 20. Neither the Agent nor the Issuing Agent shall be obliged to concur if in the reasonable opinion of the Agent or the Issuing Agent (as applicable), doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Agent or the Issuing Agent in the Finance Documents.

20.7 Limitation of liability for the Independent Adviser

- 20.7.1 Any Independent Adviser appointed pursuant to Clause 20.3 shall not be liable whatsoever for damage or loss caused by any determination, action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its gross negligence or wilful misconduct. The Independent Adviser shall never be responsible for indirect or consequential loss.

- 21.1 The Issuer has appointed the CSD to manage certain tasks under these Terms and Conditions and in accordance with the CSD Regulations and the other regulations applicable to the Bonds.
- 21.2 The CSD may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has effectively appointed a replacement CSD that accedes as CSD at the same time as the old CSD retires or is dismissed and provided also that the replacement does not have a negative effect on any Bondholder or the admission to trading of the Bonds on the sustainable bond list of Nasdaq Stockholm (or any other Regulated Market, as applicable). The replacing CSD must be authorised to professionally conduct clearing operations pursuant to the Swedish Securities Market Act (Sw. *lag (2007:528) om värdepappersmarknaden*) and be authorised as a central securities depository in accordance with the Financial Instruments Accounts Act.

22. NO DIRECT ACTIONS BY BONDHOLDERS

- 22.1 A Bondholder may not take any action or legal steps whatsoever against any Group Company to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or their equivalents in any other jurisdiction) of any Group Company in relation to any of the obligations or liabilities of such Group Company under the Finance Documents. Such steps may only be taken by the Agent.
- 22.2 Clause 22.1 shall not apply if the Agent has been instructed by the Bondholders in accordance with the Finance Documents to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Bondholder to provide documents in accordance with Clause 18.1.2), such actions within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by the non-payment of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or by any reason described in Clause 18.2.12, such failure must continue for at least forty (40) Business Days after notice pursuant to Clause 18.2.13 before a Bondholder may take any action referred to in Clause 22.1.
- 22.3 The provisions of Clause 22.1 shall not in any way limit an individual Bondholder's right to claim and enforce payments which are due to it under Clause 11.4 (*Mandatory repurchase due to a Change of Control, De-listing or Listing Failure (put option)*) or other payments which are due by the Issuer to some but not all Bondholders.

- 23.1 The right to receive repayment of the principal of the Bonds shall be time-barred and become void ten (10) years from the relevant Redemption Date. The right to receive payment of interest (excluding any capitalised interest) shall be time-barred and become void three (3) years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Bondholders' right to receive payment has been time-barred and has become void.
- 23.2 If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (Sw. *preskriptionslag (1981:130)*), a new limitation period of ten (10) years with respect to the right to receive repayment of the principal of the Bonds, and of three (3) years with respect to the right to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the time-bar period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.
